

## Xero Unplugged - Issue 7

April saw the launch of Xero Signals. Signals utilises actual data from Xero users to uncover trends and unlock new ways small businesses can work to achieve their goals. For example last year 24% of small businesses had overdue invoices of 30 days and older, whereas this year it currently sits at 40% showing a significant increase in overdue debtors.

Xero Signals will be releasing regular and timely updates based on the data they are accumulating from Xero users. Some recently published articles cover Managing Cashflow, Streamlining Your Invoicing, Making Your Website Work for You etc..
